WORK EXPERIENCE

Full Stack Developer Intern (MERN)

JSPIDER

01/2024 - Present

Bangalore

MERN PROJECT

- I've developed impactful projects using the MERN stack, such as an e-commerce platform with MongoDB, Express.js, React, and Node.js, featuring user authentication and secure payments. Additionally, I created a social media app with user profiles, news feeds, and real-time messaging, highlighting my full-stack development skills.

FLUTTER Intern

ERA interfaces

05/2021 - 01/2022

Bangalore

Food Delivery app

- I created a food delivery app clone with Flutter. It includes features like user login, restaurant menus, shopping cart, order tracking, and payment processing. This project helped me improve my UI design, state management, and API integration skills.

SKILLS

HTML

CSS

JAVASCRIPT

REACT

Node.js

Express.js

MongoDB

MySQL

C++

Git

PERSONAL PROJECTS

* Railway PNR status check :-

- I created a React app for checking PNR status. Users input their PNR number to fetch current train journey details, using React's components and state management for a responsive and user-friendly experience.

* E-commerce website for electronics gadgets:-

- I made an electronics gadget e-commerce site using React and Node.js. It lets users browse and buy products with a clean interface. React handles how things look, and Node.js manages product info, user logins, and orders.

CERTIFICATES

--> Certified in Course of python Basic for data science from IBM, EDX.

--> Certified in Programming in core java from LAKSHYA, Bhubaneswar
